Xulon Press. Hardcover. Condition: New. 424 pages. Dimensions: 9.0in. x 6.1in. x 1.0in. Genesis is divided into twelve different generations, twelve epochs of variable lengths. Each epoch is full of abundant spiritual lessons. God reveals His character through His names. Therefore, fourteen different names of God in Genesis are translated from Hebrew into English. This commentary is written from the perspective of a medical doctor. There are many medical insights to be gained from Genesis on human sexuality, the menses, aging and its physical and psychological processes, the dying process, and the care of the dying patient and his family. The account of the creation in Genesis, and from other parts of the Bible, is compared to current scientific theories. Difficult texts from Genesis are elucidated by a review of the original text in Hebrew and in Greek for selected New Testament passages. The Biblical Timelines are traced from the time of Adam until the birth of the Christ. During his medical career, the author has studied internal medicine, geriatrics, and infectious diseases and been credentialed in these fields. He has published in scientific journals in the discipline of infectious diseases. His medical fellowships include the American College of Physicians, the American College of Physician Executives, and the American College of Healthcare Executives. He has held several administrative positions at an executive level. He has published in Christian periodicals on the subject of Medicine and the Scriptures and authored a prior book, Family Reunion with Old Testament Patriarchs. He is a former Dean of the ORU School of Medicine, a Christian medical school. He has served on several boards of churches and Christian organizations. He has taught group Bible studies for over four decades. In order to better understand the Bible, he has studied Hebrew and Greek. This item ships from...
