iUniverse, United States, 2007. Paperback. Book Condition: New. 224 x 148 mm. Language: English . Brand New Book ***** Print on Demand *****.Reading this book will take you on a journey of understanding the universe in a novel new way. No complicated science or math, only simple logical steps to follow from being able to look at electromagnetic radiation in a new light to understanding the basic forces of nature. Did you ever wonder how an attractive force can work in nature? Exactly how gravity operates? What causes radioactivity? How old is the universe? The origin of matter? How does a prism bend and separate light by color? Why light and all particles with mass have a wave characteristic? What is time? Where does mass come from? This book explains all these and more by one simple basic principle. The whole universe operates on a principle as simple as the on off logic in your computer. There is a second reason the moon is receding from the earth, find out why. After reading this book you will look at the universe a little differently, with a little more awe. You will be able to appreciate the beauty of the earth and moon as never before.
