They analyse the factors which were responsible for the ever changing alliances between the Muzaffarids of Gujarat, the Mamluks of Egypt, the Ottomans of Turkey and the Safavis of Persia in their confrontation with the Portuguese. They also examine the causes which led to the emergence of the mercantile class in Gujarat and assess the influence exercised by some of the business houses of the Mughal Court. Finally they explode some of the accepted theories in respect of Mughal India and throw revealing light on hitherto neglected archival heritage of our country.
