This motivated some economists and psychologists to researchthe influences on the formation of prices on the capital market while including behaviouralscientific findings. Hence in 1980s Behavioural Finance has been developed,which challenges the homo oeconomicus and came to the conclusion, that humans arenot only acting rational, but that they are influenced by emotions, knowledge as well asexperiences, i.e. are irrational. Thus this new scientific behavioural oriented theory,which is today a separate branch of research, contradicts the classical capital markettheory and supplies explanations for the observed phenomena on the capital market.[.] 80 pp. Englisch.
