Forgotten Books, United States, 2015. Paperback. Book Condition: New. 229 x 152 mm. Language: English . Brand New Book ***** Print on Demand *****.Excerpt from The Use of Artificial Heat in Curing Cigar-Leaf Tobacco Sir: I have the honor to transmit herewith a manuscript entitled The Use of Artificial Heat in Curing Cigar-Leaf Tobacco, by Dr. W. W. Garner, Physiologist in Charge of Tobacco and Plant Nutrition Investigations, and to recommend that it be published as Bulletin No. 241 of the Bureau series. This paper presents the results of investigations which have been in progress for several years in the Connecticut Valley relating to the improvement of present methods of curing cigar tobacco. It has been demonstrated that by the use of artificial heat the curing can be successfully accomplished during the most unfavorable weather conditions, and methods for accomplishing this end are outlined. The author desires to acknowledge his indebtedness to Mr. W. S. Pinney, of Suffield, Conn., who has made a study of tobacco curing for many years, for his enthusiastic cooperation in these investigations. Mr. Pinney has not only worked out many of the mechanical details of applying heat by means of flues, but has thoroughly demonstrated by tests conducted on a large scale the value of this method of utilizing artificial heat in curing cigar tobacco. About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books. Find more at This book is a reproduction of an important historical work. Forgotten Books uses state-of-the-art technology to digitally reconstruct the work, preserving the original format whilst repairing imperfections present in the aged copy.
