Createspace Independent Publishing Platform, 2017. Paperback. Condition: New. Large Print. Language: English . Brand New Book ***** Print on Demand *****. Would you like the glory of true scientific greatness but at the risk of being shown to be wrong; what the experts call stung? That is a challenge for any scientist looking to improve on Newton. One such was John Barton, a young student genius at Cambridge. The tabloids claim that Barton has distant illegitimate royal links and make some outlandish claims about this new gravity. The problem is that Barton is a violent, manic-depressive man. With that British public-school accent and charm, he becomes a national hero; he captains his college to victory in a TV University Quiz and is a born actor playing parts from Shakespeare to a pirate trapesing his magnificent shirtless body across the stage in Gilbert and Sullivan's eponymous comic opera. How does the world of science react to this Barton upstart? How will his new theory affect existing complex relations between scientists and funding structures? One response is to simply deny Barton's veracity and send the young novice away to read his textbooks and think again. But Barton does no such thing and becomes ever more aggressive. Barton's Cambridge supervisor is a dour, old antediluvian scientist, James Crawford who has already fallen into the web of Ed Grace, an American, Ivy League, commercial scientist. Grace's influence is ingratiating, humble and totally self-serving and has already stolen the lion's share of a Nobel Prize for Crawford's entire life's work. Then, cataclysmic disaster strikes when Crawford inadvertently gives Barton's theory to this ruthless retrograde who immediately publishes it and then has the gross audacity to accuse Barton of the terrible sin of plagiarism. To square the circle...
