## FABRICATION AND CHARACTERIZATION OF ZNO NANOWIRE TRANSISTORS

VDM Verlag Dez 2008, 2008. Taschenbuch. Book Condition: Neu. 220x150x8 mm. Neuware - Recently, a variety of physical and chemical methods have been used to synthesize and obtain 1-dimensional semiconductor nanostructures. For the cause of easier nanostructure formation and device applications, we begin this study with the investigation in growth mechanism and well-controlled condition to synthesize 1-dimensional ZnO nanowires. For the low dimensional structure of nanowire, the manipulation of individual nanowire has become an unsettled and crucial issue....

### Reviews

*Great eBook and useful one. We have go through and i also am certain that i am going to likely to read through yet again once more in the foreseeable future. Your lifestyle period will likely be transform once you comprehensive looking over this book.*

-- **Carter Haag**

*It becomes an incredible publication that we actually have at any time read. It is one of the most incredible book i actually have go through. I am just delighted to tell you that this is actually the finest pdf i actually have read through within my personal life and might be he finest publication for actually.*

-- **Prof. Hilma Robel**

*It is really an awesome pdf that I actually have actually study. It really is basic but excitement from the 50 % of the publication. I am delighted to inform you that here is the greatest book i have read through within my individual existence and can be he finest publication for actually.*
