

Break Down Epilepsy Today: Symptoms Signs of Epilepsy, Treatment Medication, Causes, Types of Epilepsy, Facts, Diet, Epileptic Seizure, Temporal Lobe Epilepsy, Partial Epilepsy, Epilepsy Foundation, Neurology Diseases Book (Paperback)

By Lisa Thompson

Createspace, United States, 2014. Paperback. Condition: New. Large Print. Language: English. Brand New Book ***** Print on Demand *****. Epilepsy is a disease that can be benign or life-threatening. As a sufferer or an individual who has a loved one who is suffering from this disorder, you should have the right knowledge to be able to deal with the illness effectively. Remember, epilepsy involves a wide spectrum of disturbances in the brain that may result to strange behaviour, emotions and at times muscle spasms, seizures and even loss of consciousness. All of these are difficult things to deal with and you certainly don t want the disease beat you up completely - this book contains the help that you need! Through this book, you will learn more about epilepsy, signs and symptoms, causes, medical and natural treatments available and more. Although there is no certainty that epilepsy will be cured in all cases, the information that you will find in this source will reduce the risks and occurrence of epilepsy attacks. Plus, you will be guided how to recognize the symptoms and prevent the development of emotional issues in you or in your significant others brought by the stigma...

Reviews

This publication is wonderful. It normally is not going to expense too much. Its been printed in an extremely straightforward way in fact it is merely following i finished reading this publication where actually transformed me, modify the way i really believe.

-- Russell Adams DDS

The most effective publication i ever read through. I could possibly comprehended almost everything using this composed e pdf. I am very easily could get a enjoyment of reading through a composed pdf.
