Excerpt from Report of the Committee on Health and Drainage, on the Origin and Diffusion of Yellow Fever in Charleston in the Autumn of 1856 It may be here remarked, that at this time, there seemed to be a cessation in the occurrence of cases in the city, and the plan was adopted by the Mayor and Board of Health, of sending all who were taken sick in vessels to the Laza retto, instead of allowing them to go to the Hospital, in the hope ofthus arresting the spread ofthe disease. The plan was, however, abandoned, as soon as it was found that other cases were occurring in the city, and were going to the Roper Hospital.
