BUILDING WEBSITES WITH MAMBO

[DOWNLOAD](#)

Shroff Publishers/Packt, 2007. Softcover. Condition: New. This book is a fast paced tutorial to creating a website using Mambo. If you have never used Mambo, or even any web content management system before, then this book will walk you through each step in a friendly and accessible way. From installation, to initial set up and content entry and then on to customization for your own look and feel, this book will get you to a stable and working Mambo based web site fast. You do not have to be an experienced web developer or designer to get a great looking site with a full set of functions using this book and Mambo. This book will guide you through every step. Mambo is a mature and fully featured Content Management System (CMS). First released in 2001, the system is now on release 4.5.x and is supported by an active and well organized open source development team and community. Mambo is both easy to use at the entry level for creating basic websites, whilst having the power and flexibility to support complex web applications. Mambo implements the core requirements of a full featured CMS. It has a powerful and extensible templating system with the ability to upload and manage many different data types. User access control, content approval, rich administrative control, content display scheduling are all built-in. New features and extensions are constantly added to the core system, with many more being available and supported by the community. The book begins by introducing Mambo and concepts behind content management. Then the installation of Mambo, and its supporting software [Apache/MySQL/PHP] is covered clearly and simply. Once you have the installation up and running, we then take a tour of Mambo as it appears out of the box, to familiarize ourselves with how it...
