Sometimes, though, and always when least expected, the unpredictable happens. Unusually unpredictable is the unstable connection of two courtroom participants, or dare they be referred to as reactants, that when combined produce volatile expectations. A pathway toward erotic fantasies turned realities form as one outlandish scheme bridges into the next, each one building on the last, that terminate with electric and detonating results. Gwendolyn, the former Washington DC microbiologist, whose employs expanded into the federal levels finds herself in a situation where she is misunderstood, wrongly accused of debilitatingly mental illnesses, abandoned, and can t seem to get her bearings straight as she is forced into a position of persuading her most precious of causes; Rob, on the other hand is a district attorney, whose obscured sickingly sweet demeanor and occasional horn-dog tendencies finally catches up to his own exploits, that when the chemical equation called Rob and Gwendolyn finally combine, the most volatile, unstable, unpredictable and electrical results ever expected are yielded and extracted as a viable product of the most erotic equation ever known in existence.
