### FARM BUILDINGS (CLASSIC REPRINT)

Forgotten Books. Paperback. Condition: New. This item is printed on demand. Dimensions: 9.0in. x 0.8in.Excerpt from Farm Buildings This book treats of the location, planning, construction and repair of farm buildings. The material presented was collected from various sources by the authors; from their experience as farmers, experiment station workers and teachers. An effort has been made to group and present this material in an order which would make it practicable as a text book for college students, a reference for secondary schools and a source of information for the farmer. The farm building problems have received more attention during the past decade than during the previous century. New types of buildings have been developed, new materials have come into general use and new constructions have replaced the old. Furthermore, the change of agricultural methods has affected farm building problems. For instance, expensive farm machinery must be protected from weather and live stock requires Shelter by buildings formerly offered by timber. An effort was made to pick out the practical and Simple and present it in such a manner so it could be utilized by the student or farmer as a source of information and guide in building. While a course of study is not outlined, the teacher of farm building construction will find many problems which may be selected to fit any course.
