Swem Chairman, Alaska Planning Group U. S. Department of the Interior Washington, D. C. 20240 Dear Mr. Swem: Comments on the proposed Yukon-Kuskokwim National Forest (73-105): This is unquestionably the best of the three statements I examined (73-107, 73-92 and 73-105). It is thoroughly realistic in its evaluation of the Impact of the proposed management, and most honest in delineating adverse effects. They point out that It is a very large (7 million acres) area not expected to have greatly increased use over most the area, and the policy proposed would attempt to strike a balance between various disruptive and non-disruptive uses. I find it refreshingly free of pretense in the claims made regarding wilderness values. Sincerely yours, 126 RESPONSE TO COMMENTS BY...
