Reviews

If you need to adding benefit, a must buy book. It really is rally interesting throug reading through period. Your way of life period will probably be convert as soon as you total looking over this book.
(Ms. Kirstin O'Kon)

IN RUBBER LANDS: AN ACCOUNT OF THE WORK OF THE CHURCH IN MALAYA (CLASSIC REPRINT) (HARDBACK)

Forgotten Books, 2017. Hardback. Condition: New. Language: English . Brand New Book ***** Print on Demand *****. Excerpt from In Rubber Lands: An Account of the Work of the Church in Malaya Noticing again that Singapore lies only ninety miles north of the equator, it is natural that the Malay Peninsula should have a tropical climate, that tropical growth of palm. And jungle should be its outstanding physical feature, and that the Malays should lack the enterprise and energy which are the product of cold or temperate climes. The climate of the Malay Peninsula is extraordinarily equable, with very little seasonal variation and no extremes of temperature Moist heat is its general characteristic, the shade temperature varying from about 74 to 94 degrees, with a mean temperature of 80 or 85 degrees. The average yearly rainfall of the lowlands is 90 to 100 inches, fairly evenly distributed throughout the year, but in hilly districts this may be far exceeded, the fall being sometimes torrential - a truly tropical downpour. The densely wooded hills abound in animal life. The seladang (or bison) is the acknowledged king of the Malayan jungle and a great prize to the big game hunter; but elephant, tiger, tapir, panther, rhinoceros, and crocodile are to be found, as well as wild pig and some varieties of deer. Of birds the beautiful argus pheasant is the most notable; and snipe, teal, and pigeon attract those in search of sport. About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books. Find more at This book is a reproduction of an important historical work.
