Reviews

Thorough information for ebook enthusiasts. It is rally fascinating through reading through period of time. It is extremely difficult to leave it before concluding, once you begin to read the book.

(Hillard Macejkovic)

VACCINE FREE: PREVENTION AND TREATMENT OF INFECTIOUS CONTAGIOUS DISEASE WITH HOMEOPATHY (PAPERBACK)

[DOWNLOAD](#)

Createspace Independent Publishing Platform, 2013. Paperback. Condition: New. Language: English . Brand New Book ***** Print on Demand *****.The philosophy and practical applications of homeopathy described in this book offer the world an alternative or conjunctive path to the use of vaccination for the treatment and prevention of infectious contagious diseases. Moreover, this book is full of useful information and advocating for the effective treatment of infectious contagious disease with homeopathy. Considering the state of affairs in world health, where more than half of the world lives in poverty, without clean water, and adequate food supplies, the annihilation of infectious contagious disease with any healing modality is very difficult. Homeopathy offers an inexpensive and effective treatment plan which can more radically improve the status of health on this planet for its human inhabitants than any other system of medicine has so far. Not only is the information herein useful for the treatment of infectious contagious diseases but it also lays a foundation for deeper study into chronic disease. The philosophical chapters introduces the basic tenants of homeopathy, and overview of the immune system, and discusses vaccine injury in the immune system in the light of homeopathic philosophy. The clinical chapters cover: childhood eruptive disease such as chickenpox, measles, and scarlet fever: diseases that have a historical significance and/or raise concerns due to biological warfare, smallpox, anthrax, and plague: more common household illness of Haemophilus influenza, otitis media, influenza, mononucleosis, and pneumonia: sexually transmitted diseases of herpes, genital warts, gonorrhea, syphilis, AIDS and hepatitis, accompanied with an in depth look at the expression of human psychology associated with these diseases: five of the most common tropical diseases, yellow fever, typhoid, dengue fever, cholera and malaria providing sufficient information for prevention and treatment: . The remaining chapters cover homeopathic prevention and treatment..
