Excerpt from Memorial in Behalf of the State of New York in Respect to Adapting Its Canals to the Defense of the Lakes: With the Message of the President of the United States, Commending It to Congress; Washington, June 13th, 1862 In 1831, Colonel Durnford, of the Royal Engineers, in his testimony before a committee of the British Parliament, stated that provision was made for block-houses at several of the locks of the canal, and that the work being intended as a military communication, it was necessary that fortifications and works of defense should be erected at the entrance of the canal, and in its immediate vicinity at Kingston. A fortress of very considerable strength was accordingly erected, and is now the most important military work on Lake Ontario.
