

Economics of the Firm : Analysis, Evolution, History

By Dietrich, Michael

Routledge, UK, 2007. Hardcover. Condition: New. First Edition. 256 Pages. NEW. This book brings together some of the world's leading experts to present an interdisciplinary, critical perspective on current issues surrounding the economics of the firms. It eschews standard approaches to the economics of the firm (including analysis of transaction costs) in favour of a more interdisciplinary outlook, with evolutionary economics taken into account. Central to this is the concept of trust and the belief that any approach to the firm must recognize cultural and political factors. The chapters emphasize the themes of change and evolution and explore issues arising from the history and organization of firms. An important book, with contributions from Bart Nooteboom, Stavros Ioannides and Werner Holzl, this is an invaluable resource for postgraduate students of economics. Book Description: This book brings together some of the world's leading experts to present an interdisciplinary, critical perspective on current issues surrounding the economics of the firms. It eschews standard approaches to the economics of the firm (including analysis of transaction costs) in favour of a more interdisciplinary outlook, with evolutionary economics taken into account. Central to this is the concept of trust and the belief that any approach to...
