Product Description: Weapons & Armour is the first of a series of small sourcebooks that presents historically accurate data and information about ancient weapons from around the world. For use with ANY game system. You heard right. The statistical information is designed and set up in such a way that it can be applied to virtually any game system that uses dice. Much of the information in the series has been compiled in Palladium's Compendium of Weapon, Armor, and Castles, but gamers continue to ask for the "small weapon books." One reason is that the books are small, but packed with a ton of information....
