

## Model Based Inference in the Life Sciences : A Primer on Evidence

By David R. Anderson

Springer-Verlag Gmbh Jun 2010, 2010. Taschenbuch. Condition: Neu. Neuware - This textbook introduces a science philosophy called 'information theoretic' based on Kullback-Leibler information theory. It focuses on a science philosophy based on 'multiple working hypotheses' and statistical models to represent them. The text is written for people new to the information-theoretic approaches to statistical inference, whether graduate students, post-docs, or professionals. Readers are however expected to have a background in general statistical principles, regression analysis, and some exposure to likelihood methods. This is not an elementary text as it assumes reasonable competence in modeling and parameter estimation. 184 pp. Englisch.
