

Professional XMPP: Programming with Java Script and jQuery

Filesize: 1.49 MB

Reviews

It is fantastic and great. This is for those who statte there was not a worth looking at. Its been written in an exceptionally easy way which is only soon after i finished reading this ebook through which in fact changed me, change the way i really believe.
(Barry O'Reilly)

Jack Moffitt is CTO of Collecta, a new technology company focused on real time search and its applications. He has started a number of Free Software and Open Source projects. Most recently, Jack has created and led a team which has produced several XMPP related projects including Strophe (a family of libraries for XMPP communication), Palaver (a group chat server), Punjab (an HTTP to XMPP gateway service), and Speeqe (a simple, easy to use Web based group chat client). These projects are all widely used and deployed in both commercial and open source environments. He is on the Board of Directors of the XMPP Standards Foundation (XSF). This organization is the main standardization body for XMPP technology. Web application programmers, XMPP developers. Readers should be familiar with JavaScript, the DOM (document object model), HTML, some CSS and AJAX. Secondary audience: Any developer interested or curious about...
