## The Future Factor: Forces Transforming Human Destiny

By Michael G. Zey

Transaction Publishers. Paperback. Condition: New. 289 pages. Dimensions: 9.1in. x 6.3in. x 0.9in. The Future Factor offers an inspiring, optimistic view of the human future. Sociologist Michael G. Zey shows how breathtaking innovations in fields such as biotechnology, computing, robotics, medicine, energy development and space technology are catapulting global society into a new era of abundance and prosperity. As the third millennium begins, technological breakthroughs provide unprecedented opportunities for growth, profitability and organizational and personal reinvention. However, to stay ahead of the curve and anticipate future developments before competitors and peers do, leaders, companies and individuals must be equipped with the capacity to make informed decisions. In The Future Factor, Zey provides the sophisticated cutting-edge knowledge needed to achieve competitive advantage that individuals require to make career and life choices. Zey paints a big picture of new forces--biogenesis, cybergenesis, species coalescence and dominionization--that are subtly impacting society and the global economy and changing forever the way we live. Among the subjects explored in this wide-ranging book are: the role cybergenesis will play in making humans healthier; the universal communication network based on the Internet and virtual reality; biogenesis, gene therapy and decoding the human genome; next generation robots, smart machines and...
