Reviews

The most effective publication i at any time read. We have study and i am sure that i will likely to read yet again once again in the foreseeable future. You will not truly feel monotony at anytime of your time (that's what catalogs are for about in the event you request me).

(Mr. Rafael Hoeger)

UNBUNDLED NETWORK ELEMENT

Part Press Alphascript Publishing. Taschenbuch. Condition: Neu. Neuware - Unbundled Network Elements (UNE) are a requirement mandated by the United States Telecommunications Act of 1996. They are the parts of the telecommunications network that the incumbent local exchange carriers (ILECs) are required to offer on an unbundled basis. Together, these parts make up a local loop that connects to a digital subscriber line access multiplexer (DSLAM), a voice switch or both. The loop allows non-facilities-based telecommunications providers to deliver service without laying network infrastructure, such as copper wire, optical fiber, and coaxial cable. 80 pp. Englisch.
