NET COMPACT FRAMEWORK 3.5 DATA-DRIVEN APPLICATIONS: BUILD ROBUST AND FEATURE-RICH MOBILE DATA-DRIVEN APPLICATIONS WITH THE HELP OF REAL-WORLD EXAMPLES

Shroff Publishers/Packt, 2010. Softcover. Condition: New. Build robust and feature-rich mobile data-driven applications with the help of real-world examples Develop data-driven mobile applications from the ground up on top of the Oracle Lite and SQL Server Lite databases Build ergonomic User Interfaces targeting the mobile platform that you can easily adapt for your business applications Optimize performance and security on the mobile platform as well as drawing useful charts and reports using NET CF`s graphics libraries for your data-driven applications Utilize the various tools provided by Microsoft to maintain and fine-tune your enterprise applications with the help of realistic case studies Build three real-world business applications from the ground up with the help of easy-to-understand code snippets to provide practical and hands-on experience In Detail The new NET CF 3.5 framework provides enterprise application developers with a whole arsenal of possibilities at their disposal, but without proper guidance on developing performance-critical enterprise applications, it is easy to make the wrong design and technology decisions. This book guides you to build each part of a robust enterprise application by illustrating the NET CF 3 5 framework with the help of real-world business applications. It will not only help you to master basic NET CF skills, but also outlines the best methods, techniques, and tools available to create high-impact and performance-critical data-driven enterprise mobile applications. It provides a solid set of guidelines to aid NET CF developers to understand how best to apply the features of the NET CF 3 5 framework. The bulk of the book illustrates the basic concepts of NET Compact 3 5 Framework programming by walking the reader through 3 different kinds of mobile applications: A thick-client mobile sales-force application A thin-client mobile dashboard and reporting application A customer support case management application Both the SQL Server Lite...
