Inner Traditions Bear and Company, United States, 2009. Paperback. Condition: New. Original. Language: English . Brand New Book. Thousands of years ago Taoist masters discovered that a healthy organ vibrates at a particular frequency. They found six sounds with the correct frequencies to keep each organ in optimal condition. To accompany these Six Healing Sounds, six postures were developed to activate the acupuncture meridians, or energy channels, of the corresponding organs. In *The Six Healing Sounds* Master Mantak Chia explains how the pressures of modern life can cause excess heat to become trapped around the organs, causing energy blockages and sickness. He shows readers how the vibrations of the Six Healing Sounds and their accompanying postures redistribute this excess heat to the cooler regions of the body, thereby stimulating and balancing chi energy and restoring the vital organs. Regular practice of the Six Healing Sounds promotes optimal health for the organs, increased sexual pleasure, emotional balance, and the prevention of illness.
