THE GREAT EXPLORER: ADAPTED FROM AN ANCIENT AMAZON LEGEND (PAPERBACK)

Createspace Independent Publishing Platform, United States, 2013. Paperback. Condition: New. Language: English . Brand New Book ***** Print on Demand *****.If organizations are able to bridge the chronic disconnect between strategy formulation and tactical execution, profitable growth can be achieved. The 40 of companies that directly link strategic priorities to budget consistently outperform the 60 that neglect to connect strategy to execution. When budgets are aligned to strategy, needs, funding and resources combine to empower organizations to succeed, but a distressing 92 of organizations do not measure or report on lead performance indicators. 90 of well-defined strategies fail when execution falters. 85 of management teams spend less than one hour per month on strategy issues. Despite this undeniable rate of return, 2/3 of human resource and technology departments continue to develop plans that are not linked to the overall company strategy. 70 of middle managers and more than 90 of front-line employees have compensation plans completely independent of the company s strategy. Even more devastating, 95 of employees do not understand their company s strategy. This level of disconnect makes profitability a fantasy. These deficiencies find resolution in ancient times, when story and culture brought us together in cause, as illustrated in the Legend of the Great Explorer, adapted from an Amazonian folktale.
