

Creating Your Own IP Networks! (Paperback)

By Warren Romanow

AUTHORHOUSE, United States, 2005. Paperback. Condition: New. Language: English . Brand New Book ***** Print on Demand *****.Warren Romanow has been in the interconnect industry since 1984, selling, distributing and networking telecommunications equipment. He constructs systems inclusive of; the telephone (VoIP), voice mail system, unified messaging, screen synchronization, database look-up, facsimile networks, LAN/WAN, data desk top environments, pricing for local service, lata, 1+ dialing, T1/T3 and point-to-point communications. Warren explains; There were four objectives in the composition of this book. 1. If you want to know from Alexander Graham Bell to present technology, I have detailed it in an easy to understand language. 2. Real life examples of customers who should use IP telecommunications. 3. How to put the entire network together making it run smoothly and seamlessly. 4. Who to use to construct and achieve this entire network extraordinaire and why. And here s an offer you ll never get from any other author. You see, Warren Romanow doesn t just write about VoIP networks, he actually builds them. Warren Romanow and his team of consultants are so confident in their abilities to provide you a successful solution that they are now available to hire as a consultative team...

Reviews

The book is fantastic and great. I have got read through and i am confident that i will planning to read yet again once again in the foreseeable future. I found out this book from my dad and i recommended this publication to discover.

-- Prof. Nicole Zieme

Simply no words to spell out. It can be rally fascinating through studying period of time. You will not really feel monotony at at any moment of your own time (that's what catalogues are for concerning if you ask me).

-- Dr. Isabella Turner
