The state of the world population 2016: how our future depends on a girl at this decisive age (Paperback)

By United Nations Population Fund, Richard Kollodge

United Nations, United States, 2016. Paperback. Condition: New. Language: English . Brand New Book. In 15 years, the lifespan of the 2030 Agenda, the 10-year-old girl will be 25. Will she still be left behind? Or will she be enjoying her human rights and well-being, and exploring the many avenues open to her, knowing that, when her own daughter turns 10, she will experience more of the same? Only the latter scenario will allow the world to truly claim that it transformed the course of development and met the challenge of the Sustainable Development Goals. Much depends on the choices we all make, from parents to policymakers, educators to health-care professionals, economists to entrepreneurs, journalists to community leaders. Today's 10-year-old girl is on the way to her future. And her future is our own.

Reviews

An extremely awesome publication with lucid and perfect explanations. It is actually written in basic phrases rather than confusing. You will like how the writer publishes this book.

This publication might be well worth a read, and much better than other. It really is simplified but excitement inside the 50% of the book. You will not feel monotony at whenever you want of the time (that's what catalogues are for concerning when you check with me).
