Forensicsnet?/Forensicslab?: Cyber Security in a Cloud!

By Dr Treat Preston

Createspace, United States, 2014. Paperback. Book Condition: New. 229 x 152 mm. Language: English . Brand New Book ***** Print on Demand *****.Cyber Security - ForensicsNet /ForensicsLab introduces the reader to the most advance cyber security network in the world today that protects each user from all types of spyware, intrusions. Government spying, and malware. Written by two of the world s mist creative software developers, an entire chapter is dedicated to introducing you to Dr. Leland Benton and Dr. Harry Jay, the creative geniuses behind ForensicsNet /ForensicsLab . The book also explains the ins and outs of cyber security, internet privacy, security and encryption, cloud based security, cyber force structure, advanced persistent cyber security threats, cyber security wars. ForensicsNet is a cloud based program that uses a unique form of encryption that changes every 30-seconds. Anything placed in the cloud is protects - files, folders, devices such as cell phones, tablets, laptops, desktop computers, external drives, etc. An integral part of ForensicsNet is /ForensicsLab, which scans everything placed in the cloud to ensure that the user is not some type of disguised hacker or cracker attempting to infiltrate the cloud. This book is one that will open your eyes...

Reviews

The very best pdf i at any time read through. This is for all those who statte there had not been a worthy of studying. You wont sense monotony at whenever you want of your own time (that's what catalogs are for concerning when you request me).
-- Fabian Kuhlman II

Definitely one of the best book We have at any time go through. It is actually filled with wisdom and knowledge I am quickly could get a delight of studying a published book.
-- Dr. Kim Bergnaum
