Congress has played an active role in U.S. policy toward Sudan for more than three decades. Efforts to support an end to the country s myriad conflicts and human rights abuses have dominated the agenda, as have counterterrorism concerns. When unified (1956-2011), Sudan was Africa s largest nation, bordering nine countries and stretching from the northern borders of Kenya and Uganda to the southern borders of Egypt and Libya. Strategically located along the Nile River and the Red Sea, Sudan was historically described as a crossroads between the Arab world and Africa. Domestic and international efforts to unite its ethnically, racially, religiously, and culturally diverse population under a common national identity fell short, however. In 2011, after decades of civil war and a 6.5 year transitional period, Sudan split in two. Mistrust between the two Sudans-Sudan and South Sudan-lingers, and unresolved disputes and related security issues still threaten to pull the two countries back to war.
