Reviews

This book is definitely not effortless to start on reading through but extremely fun to learn. Better then never, though i am quite late in start reading this one. It is extremely difficult to leave it before concluding, once you begin to read the book.

TESTOSTERONE REX : MYTHS OF SEX, SCIENCE, AND SOCIETY

DOWNLOAD

Norton & Company Mrz 2018, 2018. Buch. Condition: Neu. Neuware - Testosterone is our favourite biological answer for stereotypical (and toxic) male behaviour - the cause of aggression, promiscuity and excessive risk-taking. Estrogen is the caring female hormone. But both sexes have both these hormones as well as many others. Re-examining wrongly interpreted research and drawing on recent and upcoming experiments, Cordelia Fine shows that there is little difference in the relationships men and women want and that, in the past, it has evolutionarily made as much sense for women, as men, to have multiple partners - and that they did. She also emphasises the often undiscussed influence on male/female behaviour: the strong impact of culture on the roles of and desires expressed by men and women. 266 pp. Englisch.
