RareBooksClub. Paperback. Book Condition: New. This item is printed on demand. Paperback. 122 pages. Original publisher: Washington : U. S. G. P. O. : For sale by the Supt. of Docs. , U. S. G. P. O. Congressional Sales Office, 2003. OCLC Number: (OCoLC)51956379 Subject: Green technology -- New Hampshire. Excerpt: . . . 11 the world and it is close to population centers. It is very predictable and dependable and can be fed into the power grid or stored. It is environmentally sound and non-polluting, with no exhaust gases, no noise and no visibility from the shore. It is scalable to high capacity power stations of 100 megawatts or more. In fact, 100 square miles of ocean area off the coast of California, which is a very small fraction of the coastline, is estimated to be capable of producing all of Californias electrical power. Furthermore, wave energy has an availability factor of 90 per-cent compared to wind and solar availability factors of 20 - 30 per-cent. OPTs wave energy generation system is based on the rising and falling of the waves which cause the buoy-like structure to move freely up and down. The resulting mechanical stroking is used to...
