Excerpt from Shaw s School Hygiene: A Review Quiz for Georgia Teachers Dr. Butler, the editor of this admirable summary of School Hygiene, pertinently reminds us in his Introduction that eye sight is impaired, normal growth prevented, blood poisoned, and the body starved, because the hours of school life are so often unhealthy and abnormal. Parents, teachers, principals, superintendents, school boards, and architects are jointly responsible for these crimes against helpless childhood. School teachers are specially responsible for such damage as they can control either by counsel, prevention, or correction, and in the state examination they will be expected to give answers to such questions in this quiz review as concern their particular responsibility for the health of the children.
