EMPOWERED BY DESIGN: DECENTRALIZATION AND THE GENDER POLICY TRIFECTA (PAPERBACK)

Temple University Press,U.S., United States, 2017. Paperback. Condition: New. Language: English . Brand New Book. In her probing book, *Empowered by Design*, Meg Rincker asks, Under what conditions will decentralization lead to women s empowerment in countries around the globe? Using three case studies-the United Kingdom, Poland, and Pakistan-she shows how decentralization reforms create new institutional offices as power shifts from the national level to a meso-tier level, which is located between the national government and local municipalities. These shifts impact a country s political, administrative, and fiscal reforms as well as women s representation. Rincker argues that this shift should be inclusive of women-or at least lead more women to participate in institutions-but this is not always the case. She indicates that three conditions, the gender policy trifecta, need to be met to achieve this: legislative gender quotas, women s policy agencies, and gender-responsive budgeting at the level of governance in question. Rincker s innovative research uses original comparative data about what women want, quantitative cross-national analyses, and interviews with women s organization leaders and politicians to show how cross-institutional policymaking can empower women. Rincker s fine-grained analysis makes a significant contribution to the study of representation and gendered implications of decentralization, as well as how representatives go about understanding and aggregating our diverse policy preferences.
