USING TECHNOLOGY TO CREATE VALUE: DESIGNING THE TOOLS FOR THE NEW HR FUNCTION (PAPERBACK)

Taylor Francis Ltd, United Kingdom, 2009. Paperback. Condition: New. Language: English . Brand New Book ***** Print on Demand *****.How can technology enable effective delivery of the HR service, and how can this technology be selected and implemented into your organization successfully? Beginning with an overview of the key roles within HR and how technology can support them, *Using Technology to Create Value*, part of the Gower HR Transformation Series, provides a step-by-step guide detailing how to identify your requirements, develop a compelling business case and ensure that the design of the selected technology solution addresses your HR and business priorities. The book includes suggestions on the skills required to implement HR technology (HRT) effectively along with case studies to illustrate the types of issues and decisions that need to be taken, and shows solutions that have been developed within other organizations. About The Gower HR Transformation Series: The Human Resources function faces a continuing challenge to its role and purpose, in many organizations it has suffered from serious under-representation at strategic, board level. Yet, faced with the challenges of globalism, the need to innovate, manage knowledge, attract and retain the very best employees, organizations need an HR function that can lead from the front. The process of transforming the function is complex and rarely linear. It involves applying and managing technology to manage risk, knowledge and communication. All of which involves a highly complex and, often painful, process of change. The Gower HR Transformation Series will help; it uses a blend of conceptual frameworks, practical advice and global case study examples to cover each of the main elements of the HR transformation process. The books in the series follow a standard format to make them easy to read and reference. Together, the titles create a definitive guide from one...
