Reviews

The very best publication i at any time study. It really is basic but shocks inside the fifty percent of the ebook. It is extremely difficult to leave it before concluding, once you begin to read the book.

Jossey-Bass. Paperback. Book Condition: New. This item is printed on demand. Paperback. 288 pages. There's too much work to be done. Your organization can't handle the load. That's when you begin to consider outsourcing some of your business functions. But how can you choose the right suppliers and ensure maximum results? In this book, Laseter--of the world-renowned consulting firm BoozAllen and Hamilton--shows companies how to address that challenge through the dynamic pursuit of balanced sourcing. This will be a super book to provide to new purchasing people and to reinvigorate experienced purchasing professionals. It was great to see many of the concepts with which we have experimented logically explained. I wholeheartedly endorse it. --Jean Mayer, executive director, manufacturing procurement operations, Ford Motor Company Laseter and BoozAllen coined the term balanced sourcing to describe a model for ensuring competitive pricing from suppliers while simultaneously nurturing cooperative relationships. Drawing upon BoozAllens experiences with leading companies, Balanced Sourcing lays out the six organizational capabilities that make up the firm's field-tested strategy. Detailed case studies of four prominent corporations--Honda of America, Cisco Systems, SUPERVALU, and Florida Power and Light--show you the broad applicability of this model for companies in industries from manufacturing to services to high-tech. Too many best practice guides present a one-size-fits-all solution, such as copying the so-called Japanese model of sole sourcing. In fact, the best Japanese companies do not treat all suppliers as sole-sourced partners and you should not either. Balanced Sourcing is full of practical tools and models that will help you think through appropriate strategies for each of your suppliers. -Dr. Jeffrey K. Liker, associate professor, industrial and operations engineering, and co-director, Japan Technology Management Program, University of Michigan Get real-life lessons from around the world on: Creating sourcing strategies Building and sustaining supplier relationships Leveraging supplier innovation and much more!...
