

Engineering skills and innovative production practices (family planning in Higher Education project training materials)

Filesize: 6 MB

Reviews

It is just one of the best publications. This can be for anyone who states that there was not a well worth reading through. Once you begin to read the book, it is extremely difficult to leave it before concluding.

(Tara Jerde)

paperback. Book Condition: New. Ship out in 2 business day, And Fast shipping, Free Tracking number will be provided after the shipment. Pages Number: 226 Publisher: Tsinghua University. Pub. Date :2011-08-01 version 1. High into the Editor of the engineering skills and innovative production practices in order to adapt to the 21st century. the development of higher education reform needs of the situation prepared engineering skills and practical innovation training materials. Materials to develop students practical skills and innovation as the core. introduces the basic knowledge of industrial manufacturing and processing a variety of training methods. according to the different structure of write processing module. such as industrial manufacturing base. material forming. machining. advanced manufacturing . innovative design and modeling. and electronic and other electrical training content. scope. structure. independent. according to the requirements of the different training module combination. for different professions and different levels of students' practical training requirements. Engineering skills and innovative production practices close integration of theory and practice. a wide range of novel processing technology for a variety of theoretical description of the necessary. strengthen the training operation of the description. the text concise. illustrated. can be used as university students engineering training materials. but also as a multi-agency practice and innovation skills training materials. For the teachers. engineers and inventions in the mechanical processing and the staff may well be an appropriate reference. Contents: first a basic knowledge of a mechanical manufacturing engineering materials and engineering materials. heat treatment basics 1.1 performance and classification of engineering materials. heat treatment 1.1.1 1.1.2 1.1.3 Mechanical properties of engineering materials. heat treatment of steel commonly used metal materials 1.2 1.2. cast iron steel industry 1.2.2 1.2.3 1 2 non-ferrous metal basic knowledge of machinery 2.1 Machinery 2.2 Overview of the basics of mechanical manufacturing processes and production process...
