(Jesse Yundt)

## LEAN SOLUTIONS: HOW COMPANIES AND CUSTOMERS CAN CREATE VALUE AND WEALTH TOGETHER

DOWNLOAD

Free Press. Paperback. Condition: New. In this landmark new book, James Womack and Daniel Jones deconstruct this broken producer-consumer model and show businesses how to repair it. A massive disconnect exists between consumers and providers today. Consumers have a greater selection of higher quality goods to choose from and can obtain these items from a growing number of sources. Computers, cars, and even big-box retail sites promise to solve our every need. So why aren't consumers any happier? Because everything surrounding the process of obtaining and using all these products causes us frustration and disappointment. Why is it that, when our computers or our cell phones fail to satisfy our needs, virtually every interaction with help lines, support centers, or any organization providing service is marked with wasted time and extra hassle? And who among us hasn't spent countless hours in the waiting room at the doctor's office, or driven away from the mechanic only to have the fix engine light go on? In their bestselling business classic *Lean Thinking*, James Womack and Daniel Jones introduced the world to the principles of lean production -- principles for eliminating waste during production. Now, in *Lean Solutions*, the authors establish the groundbreaking principles of lean consumption, showing companies how to eliminate inefficiency during consumption. The problem is neither that companies don't care nor that the people trying to fix our broken products are inept. Rather, it's that few companies today see consumption as a process -- a series of linked goods and services, all of which must occur seamlessly for the consumer to be satisfied. Buying a home computer, for example, involves researching, purchasing, integrating, maintaining, upgrading, and, ultimately, replacing it. Across all industries, companies that apply the principles of lean consumption will learn how to provide the full value consumers desire...
