## BUDDHISM AND SCIENCE (PAPERBACK)

Createspace Independent Publishing Platform, United States, 2016. Paperback. Condition: New. Language: English . Brand New Book \*\*\*\*\* Print on Demand \*\*\*\*\*. From the Introduction. The Purpose of the Book. Three kinds of books there are. First, those that give nothing and from which we demand nothing. These constitute the greater portion of the book-world; empty entertainment for the idle. Secondly, those books that give the unfamiliar and are unfamiliar to us-that is, demand only our memory. These are manuals of instruction presenting facts. And thirdly, those books that give themselves and demand ourselves. These are the books that are mental nutriment in the real sense of the words, and impart to the entire process of mental development a stimulus which, like the stimulus imparted to a growing tree, never again can be lost. The present book makes claim to belong to the last category. As something experienced by myself, it is meant to become such an experience to others. The mental poverty of our time finds its most accurate expression in the prevalent lack of individual experience. We are not impressed where we ought to be impressed, because we allow ourselves to be impressed where in truth there is nothing impressive. We mistake our true interests. The interesting is something in which we have an interest, in which we have a share. But there has been such a derangement of positions that in presence of our true interests we stand stupid spectators, whilst for the interesting in the banal sense, we are ready to go through fire and flood. To the average man of to-day it is far more interesting to read hair-splitting investigations into the question as to whether Christianity is a branch of Buddhism or Buddhism of Christianity, than to think out and live that which both have...
