FBC LTD, 2018. Hardback. Condition: New. Language: English . Brand New Book ***** Print on Demand *****.Excerpt from Franciscus Cornelius Donders We find him, at the age of twenty-four, giving, as Professor, eight teen lectures weekly for forty-six weeks of the year, on anatomy, histology, and physiology, and yet finding time for a vast amount of original investigations. In his modest address on the occasion of his jubilee, last year, he thus expresses his appreciation of the favorable circumstances by which he had been surrounded: NO other period has been comparable with this for great discoveries in so many fields Of biological science. Von Baer had discovered the ovule of the mammals; Bischoff had demonstrated that the embryo is built up exclusively by means Of segmentation Of cells; Schwann found in the cell the origin of all the fundamental forms of life; Henle had created, in his Anatomic Generale, an organon of histology. At the same epoch appeared the Physiology of Jean Muller. It was in such a world I had the good fortune to have place; every circumstance seemed to be adapted to render my life and my work prolific. About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books. Find more at This book is a reproduction of an important historical work. Forgotten Books uses state-of-the-art technology to digitally reconstruct the work, preserving the original format whilst repairing imperfections present in the aged copy.
