Excerpt from Thirty-Sixth Annual Report of the State Board of Health of Massachusetts The following report covers the work of the State Board of Health for the year ended Sept.30, 1904. In the field of water supply and disposal of sewage, it covers the work performed during the year ended Dec.31, 1904; and in that of production of diphtheria antitoxin and of laboratory diagnosis, only that done during the six months ended Sept.30, 1904, the preceding six months work having been reported upon in the report of the Board for the year 1903. His capacities in the preparation and discussion of vital statistics were everywhere acknowledged by the masters of the subject, and there was no department of public...
