## A SCIENTIFIC COMMENTARY ON GENESIS 1-11 (PAPERBACK)

Createspace Independent Publishing Platform, United States, 2015. Paperback. Condition: New. Language: English . Brand New Book \*\*\*\*\* Print on Demand \*\*\*\*\*.The first chapters of Genesis continue to be a great enigma to the modern world. However, scientific evidence can place real constraints on what these stories originally meant, both as the inspired word of God and a record of the real experiences of ancient peoples. Geological, archaeological and literary evidence shows that the biblical account is consistent with a setting in the earliest history of Mesopotamian civilization. Starting from a scientific viewpoint, this commentary provides a systematic analysis of the meaning of the first eleven chapters of Genesis in a Mesopotamian context.
