PARTS SUPPLIERS AS INNOVATORS IN WIRE TERMINATION EQUIPMENT (CLASSIC REPRINT) (HARDBACK)

Forgotten Books, 2018. Hardback. Condition: New. Language: English . Brand New Book ***** Print on Demand *****.Excerpt from Parts Suppliers as Innovators in Wire Termination Equipment Following von Hippel (1979, p. The functional source of a process innovation is here defined according to the functional relationship through which the innovator benefits from his innovation. If the innovator implements the innovation into his own production activities to improve them it is a user innovation. An example might be new welding equipment invented and developed by an automobile manufacturer for incorporation into his own auto body assembly line. If instead the innovator sells equipment that embodies the innovation it is termed an equipment manufacturer or manufacturer innovation. This would be the case if improved welding equipment were invented by an industrial machinery manufacturer who then sold it to users for implementation in their plants. And if the innovator benefits because the innovation promotes the use of some other production process input that he sells, it is a supplier.
