Kumarian Press, United States, 2006. Paperback. Condition: New. Language: English . Brand New Book. Despite the widespread acceptance of human rights at the normative level, actual progress toward the realization of human rights globally has been far from satisfactory. Concerned with human rights outcomes, this book departs from analyses that focus on the role of the state in human rights promotion and urges the study of the entire human rights universe. Transcending as well the literature on the role of NGOs, the book examines a broad range of non-state actors engaged in various activities that violate, promote or protect human rights. Contributing authors examine several important issues, such as bioethics, armed conflicts, and welfare reform, while stressing the need for accountability and mechanisms for curbing human rights violations.
