Uh-1 Iroquois Pilot's Flight Operating Instructions (Paperback)

By Headquarters Department of the Army

Periscope Film LLC, United States, 2011. Paperback. Condition: New. Language: English . Brand New Book ***** Print on Demand *****.Developed by Bell in the early 1950s, the UH-1 Iroquois was the first turbine-powered helicopter to enter production for the U.S. military. Originally designated the HU-1A for Helicopter Utility, it was quickly nick-named the Huey a moniker that stuck even after the aircraft was reclassified UH-1 in 1962. Designed as a medical evacuation, transport and utility helicopter, the UH-1 was extraordinarily successful with more than 16,000 built. The XH-40 prototype flew in 1956, production commenced in 1959, and by 1962 the Huey entered combat service with the 57th Medical Detachment in S.E. Asia. The UH-1's history in combat includes a long and meritorious service in Vietnam, where its distinctive airframe and two-blade teetering rotor came to symbolize the concept of air mobility. Hueys of various configuration flew in a wide variety of roles, and were modified as cargo carriers, search and rescue platforms, gunships and for reconnaissance and electronic warfare missions. Of over 7000 UH-1s to serve in Vietnam, an astonishing 3305 were destroyed including some of the last American aircraft lost in the war the Hueys used...
