There has always been a mystique concerning the mysteries surrounding death - especially those activities regarding the functions of those who become responsible for the examination, treatment and disposition of the dead body. The study of such matters is called Thanatology. This book reveals the life of a person who, from a very young age, has experienced various facets of the death process including, autopsies and mortuary operations. This is an eye-opening treatise on the various activities which surround the processing of a human body for its final disposition: this book includes, the description of the normal Autopsy (done by regular pathologists who seek to learn more about disease) as well as the Forensic Autopsy (regarding deaths from unnatural causes such as suicide, homicide accidental, etc. causes) performed by a Medical Examiners examiner. The book further enters into the world of the mortician and the aspects of body management heshe must perform. There is also a discussion about various religious rituals which are the con-cern of the Funeral Director who must plan a proper service or memorial. Body preparation is a major aspect of the morticians work - the book will describe the step-by-step process of this function and a discussion regarding caskets, cremation, urns a cemeteries and the various types of final disposition types is included. This book is suitable for anyone considering a career in an aspect of thanatology or for anyone who has had the curiosity as to what actually happens behind those closed doors. It also serves as a starting point for further discussion on death and dying. It is an attempt to unlock the mysteries of the death business to help us to better understand...
