Brand New Book ***** Print on Demand *****.This historic book may have numerous typos and missing text. Purchasers can download a free scanned copy of the original book (without typos) from the publisher. Not indexed. Not illustrated. 1806 Excerpt: .secured diagonal braces, abutting a midshifi on the keel, and rising along the curves on each side, till at each end they support and add strength to the timber both of the sides and the decks, for the whole length of the ship, by which the longest ship would be in less danger of spinging a leak, even if grounded a midship on a falling tide. All our public ships are well built and highly finished; even our medley farmers sometimes undertake to form models and to build merchant vessels of 90 to 200 tons, with little or no instruction Their general rules are, by endeavoring to imitate the belly of a duck or a fish, for the hull, and to have the extreme breadth within one third of the whole length from the stem, to have an easy entrance and true curve lines, with no...
