The ebook is great and fantastic. We have read and i also am sure that i am going to likely to go through once again again down the road. Once you begin to read the book, it is extremely difficult to leave it before concluding.

Createspace, United States, 2010. Paperback. Condition: New. Language: English . Brand New Book ***** Print on Demand *****. Loving yourself is our largest challenge on earth and that is the way of it. After you master loving yourself, instead of taking care of others, it is easy and natural to love others. Going against the universal laws creates SUFFERING. The point of the suffering in your life is to get your attention; just like a 2 by 4 upside your head would get your attention. SEE things differently change your values and work the puzzle of your life from a different angle, go larger and take a broader view. The most difficult lonely path on earth is awakening spiritually and becoming aware and present in your own existence on earth. I do NOT mean learning or talking about the THEORY. I mean a good hard look at your thoughts and cleaning that mess up so you can start loving you unconditionally. Our social training or programming to honor the family and others regardless how evil they are benefits us in no way I can think of. Why do we keep doing it? We do it because we are afraid not to. Aunt Sue may be a predator and you still need to kiss her and be nice to her. You might care to release that type of social programming. All the need to and have to things in your life need to be reevaluated from a spiritual perspective and don't ask criminals to care for your valuables. LAW OF PERPETUAL TRANSMUTATION of ENERGY is that all humans have the power to change the conditions in their lives. Raising your vibration IS HARD work. You need to stay in your biology. Focus your thoughts and we ALL have the skill...
