Models of Cancer Survivorship Care (Paperback)

By U S Department of Health Human Services, Agency for Healthcare Research and Quality

Createspace, United States, 2014. Paperback. Condition: New. Language: English . Brand New Book ***** Print on Demand *****.As of January 2012, the United States had nearly 14 million cancer survivors, with 59 percent ages 65 years or older. The number of survivors is projected to grow to 18 million by 2022. Survivors (that is, patients who have completed active treatment) have unique physical, psychological, social, and spiritual health needs. Even as the oncology workforce is projected to experience substantial shortages, the number and needs of cancer survivors is projected to increase. Relative to pediatric cancer survivors, adult survivors (i.e., survivors of adult-onset cancers) are understudied. Further, their health care needs differ from those of pediatric survivors-adult survivors may have an increased risk for comorbidities, presenting unique care coordination challenges. Consequently, this Technical Brief seeks to increase knowledge regarding survivorship care models for adult cancer survivors (19 years of age or older). Cancer survivors have unique post-treatment needs, as these individuals may have higher risks of recurrence and secondary cancers; chronic or late-occurring effects of cancer or cancer treatment; comorbid conditions that may have been exacerbated by cancer treatment; and increased likelihood of preventable morbidity and mortality that can be reduced...
