Culture and Modern Contraceptive Behaviour in Rural Ashanti, Ghana

By Cynthia Gadegbeku

LAP Lambert Academic Publishing Mrz 2014, 2014. Taschenbuch. Book Condition: Neu. 220x150x24 mm. Neuware - Four important variables: marriage, induced abortions, postpartum infecundity and contraceptive use have been used to explain variance in fertility rates in developing populations. Of all these proximate factors, contraceptives have been found to have the strongest effect on fertility decline in most developing countries. Policies and programmes were developed to increase the acceptance and use of contraceptives. Despite this attempt fertility rates kept increasing. What is accounting for this phenomenon Could an understanding of the culture of such societies be the answer Studies have shown the importance of culture in understanding fertility behaviour especially in Africa and that policies and programmes designed based on the culture of a society have high success rates. This book investigates what constitutes Akan culture , presents an overview of health care systems and contraceptive use in rural Ashanti. It also uses the Theory of Planned Behaviour a theoretical framework that helps investigate the determinants of intention and behaviour, to understand the influence of Akan culture on modern contraceptive behaviour in rural Ashanti, Ghana. 400 pp. Englisch.

Reviews

Here is the finest publication i have read through until now. I am quite late in start reading this one, but better then never. I am just easily can get a pleasure of studying a created publication.

-- **Morgan Bashirian**

It in one of the most popular publication. We have read through and that i am sure that i will likely to study again once more later on. I am just delighted to tell you that this is actually the finest publication we have read through in my individual existence and might be he best pdf for actually.
