## UNIVARIATE AND MULTIVARIATE METHODS FOR THE ANALYSIS OF REPEATED MEASURES DATA

GRIN Verlag. Paperback. Condition: New. 72 pages. Dimensions: 8.3in. x 5.8in. x 0.2in. Thesis (M. A.) from the year 1999 in the subject Statistics, grade: Passed, RMIT, course: MAppSc, language: English, comment: This thesis considers both univariate and multivariate approaches to the analysis of a set of repeated-measures data. Since repeated measures on the same subject are correlated over time, the usual analysis of variance assumption of independence is often violated. The models in this thesis demonstrate different approaches to...

### Reviews

*This ebook may be worth getting. I actually have read through and i am sure that i am going to likely to read through again once more down the road. You will not sense monotony at whenever you want of your respective time (that's what catalogues are for relating to should you check with me).*

-- **Mr. Golden Flatley**

*This publication is wonderful. It is amongst the most remarkable pdf i have got read. Its been written in an exceptionally basic way and it is merely after i finished reading through this pdf in which really transformed me, alter the way i really believe.*

-- **Shayne Schneider**
